PRESTIGE METAL RELOCATED

From Illinois to Wisconsin, Prestige Metals Moved Our Production Facility

Bristol, WI, June 5, 2017– Prestige Metal Products Inc., a quality fabricator of sheet metal for over 70 years, has moved both the company production facility and company headquarters to Wisconsin.

John Annessi, President of Prestige Metal Products Inc. stated, “The support from the community has been overwhelming. First, the Kenosha Area Business Alliance – who then introduced us to the Milwaukee 7 and the Wisconsin Economic Development Corporation. Everyone treated us like we were the next Amazon. We are very grateful and excited to be here in Wisconsin.”

Moving to Bristol, Wisconsin represents a \$2.4 Million investment in customer service and product quality.

Metal Fabrication Solutions can be viewed on our site:

About Prestige Metal Products Inc.: As a successful fabricator of 70+ years, Prestige has customers across the entire spectrum of manufacturing. Prestige-manufactured stainless steel parts are in a variety of machines including soft ice cream machines, and food cooking machines in many brand name fast food restaurants. Prestige Metals is looking to expand their presence in these markets as well as others.
